

# BarTender® Label Printing Software

## Editions Available

### Enterprise Edition

Our most powerful Edition includes features that simplify the integration of BarTender with other software products. This Edition is particularly helpful for label design and printing on larger networks.

- “Commander” Integration Software Utility
- ActiveX Automation
- SAP IDoc Interface (R/3 and mySAP.com)
- Print-Job Logging
- Multi-Printer-Based Licensing
- All BarTender Label-Design Features
- All BarTender Graphics Features
- All Data-Access Features ... ODBC, Text Files, IDoc
- Full Printer Support
- All Data-Selection Features: ... SQL, Query, Pick List
- Visual Basic Script
- Custom Data-Entry Forms
- Command-Line Interface
- Password Protection
- 20+ Bar Codes Supported
- Five 2D Codes
- Complete Serialization Options
- International Languages Included

#### Licensing Information:

Based on the number of **printers** to be used and is ideal for a large number of users working on a shared network.

### Professional Edition

This Edition of BarTender contains the features needed by experienced label designers without sacrificing the ease-of-use required by first-time users. Delivers a very wide range of capabilities, including extensive data sourcing.

- All BarTender Label-Design Features
- All BarTender Graphics Features
- All Data-Access Features ... ODBC, Text Files, no SAP Support
- Full Printer Support
- All Data-Selection Features: ... SQL, Query, Pick List
- Visual Basic Script
- Custom Data-Entry Forms
- Command-Line Interface
- Password Protection
- Single-User/ Multi-Printer-Based Licensing
- 20+ Bar Codes Supported
- Five 2D Codes
- Complete Serialization Options
- International Languages Available

#### Licensing Information:

Based on the number of **workstations** on which BarTender will be installed, allowing a defined number of users to print to an unlimited number of printers. This Edition is ideal when one or multiple users are not connected to a common network.

### Basic Edition

Designed for users who just need BarTender's essential features and don't require external data options.

- WYSIWYG Design and TrueType Fonts
- Custom Data-Entry Forms
- Full Printer Support, Printer Fonts
- All Popular Linear Bar Codes
- Embedded Graphics Support
- Lines and Boxes
- Limited Serialization
- International Languages Available

#### Licensing Information:

Licensing utilizes the more common **workstation-based licensing**. (See Professional Edition)

### International Language Support

BarTender is also available in International Editions that support **on-demand** switching between:

Chinese (Simplified)	Dutch	Italian	Portuguese
Chinese (Traditional)	English	Japanese	Portuguese (Brazilian)
